

# MSC Table Tennis Rules

- Put your racket on the floor (left to right) at the table of your choice to wait for your turn on that table. The paddles placed by each table form a "challenger's queue" for that table. Only one racket is allowed per player. Your paddle is placed to the right of any paddles already waiting at a table.
- Two minutes warmup is enforced if there are people waiting. After two minutes, a match should start.
- A match consists of 5 games. Each game is to 11 points. Whoever wins 3 games first stays on the table to play the next waiting challenger (whose paddle is on the left of the "challenger's queue.")
- If there are more than two people waiting, the two-out rule is enforced. The two-out rule states that the winner can play only two consecutive matches at most. He/she must step down even if he/she wins the second match. He/she may then challenge again on any table he/she likes.
- There is a practice-only table. Each pair can practice for 20 minutes, warmup time included, and then yield the table to the next pair.
